6	Resources

What is Perkins V and the Comprehensive Local Needs Assessment?

\$1.2B

in annual federal funding
for CTE programs nationally

**Comprehensive
Local Needs
Assessment**

Required for every district
to access Perkins V funds

**Every
2 Years**

Districts must update
their assessment
at least biannually

Goal: Guide data-driven decisions to improve student outcomes and meet workforce needs.

The Six Components of the CLNA

All six must be addressed in every assessment cycle

Student Performance

Program Size, Scope & Quality

Progress Toward Implementation

CTE Professionals

Equal Access

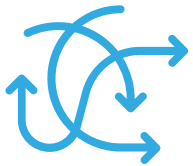

Labor Market Information

The Challenge: CLNA as a Compliance Checkbox

Overwhelming Data

Practitioners face dozens of inconsistent data sources with no clear roadmap to navigate them.

Data Not Easily Accessible

Faculty and deans struggle to engage when data is too technical and fragmented to be actionable.

No Shared Definitions

The 6 CLNA elements have no standard statewide definitions — every district interprets them differently.

Missed Opportunity

Equity work gets reduced to a box-checking exercise
The real purpose of CLNA is lost

Our Process

Step 1 · Building Trust & Making CTE Transparent

Establishing Data Transparency

CTE Definitions Guide - a handbook that clarifies how different funding sources define CTE.

Building Trust with Practitioners

Used data to highlight and celebrate practitioners' work through hosting events, including the State of CTE Summit and Work-Based Learning Summit.

Customer Service Mindset

Structured projects into clear phases, including a dedicated feedback phase to incorporate practitioners input.

Our Process

Step 2 Identifying Existing Data and Filling the Gaps

Don't Reinvent the Wheel!

Leverage existing state and regional resources first,
then build what's needed locally

1.Perkins Core Indicators

Required Perkins Performance Metrics

2.Questions to Ask During CLNA

Sample questions to guide your CLNA

i Use what's relevant and available

CLNA Element 1 : Student Performance

CCCCO Perkins Core Indicators Report

Tracks 4 federal accountability indicators across all CTE programs and student subgroups.

SDCCD Perkins Core Indicators Dashboard

Same data, rebuilt for ease of use: automated downloads, side-by-side program views, and enhanced trend charts.

Understanding Perkins Core Indicators 3: Non-Traditional Enrollment

What Does "Non-Traditional" Mean?

Non-traditional students are those enrolled in programs that lead to occupations where their gender makes up **less than 25% of the workforce**.

Example

TOP Code 123010 Registered Nursing
San Diego City College

Actual

20%

Target Minimum

24.5%

<

Of Students are male

90% of 27.18% Negotiated Level

Implication: We are NOT meeting the goal to enroll enough male students in this program

Core Indicator 3 - Cohort Yr: 2023- 2024 Non-traditional Program Enrollment			Negotiated Level		College Performance	Percent Above or Below Negotiated Level	Percent Above or Below 90% Negotiated Level
	Count	Total	State	District			
CTE Cohort*	14	70	27.18	27.18	20.00	-7.2	-4.5
Gender							
Female		55	27.18	27.18	0.00	-27.2	-24.5
Male	14	14	27.18	27.18	100.00	72.8	75.5

Understanding Perkins Core Indicators 3: Non-Traditional Enrollment

Do NOT interpret this indicator when it's broken down by gender

Only Underrepresented Gender is Counted

This indicator counts only gender that is underrepresented in the program

Traditional gender
will always be 0 and flagged in red

Non-traditional gender
will always be 100% and not be flagged

Core Indicator 3 - Cohort Yr: 2023- 2024 Non-traditional Program Enrollment			Negotiated Level		College Performance	Percent Above or Below Negotiated Level	Percent Above or Below 90% Negotiated Level
	Count	Total	State	District			
CTE Cohort*	14	70	27.18	27.18	20.00	-7.2	-4.5
Gender							
Female		55	27.18	27.18	0.00	-27.2	-24.5
Male	14	14	27.18	27.18	100.00	72.8	75.5

CLNA Element 2: Program Size, Scope & Quality

Size

Parameters and resources that determine whether a program can adequately address student learning outcomes — including sections offered and enrollment thresholds.

Scope

Programs of study that are part of — or working toward — a clearly defined career pathway with **multiple entry and exit points**.

Quality

Does the program train students for jobs that are **high-skilled, high-wage, or in-demand**? Programs must meet at least 2 of 3 criteria.

Key Question & Data Source

Is the college offering a sufficient number of courses & sections?

SDCCD CTE Dashboard

[COE Perkins Qualifying Criteria
Occupations Dashboard](#)

[SDCCD Perkins Qualifying Criteria
Programs Dashboard](#)

CLNA Element 3: Progress Toward Implementation

Key Questions

Do CTE programs incorporate relevant academic, technical and employability skills at every learner level?

How fully are CTE programs aligned and articulated across secondary and postsecondary education?

Are students in CTE programs earning recognized postsecondary credentials? Which ones?

Data Source(s)

SDCCD Work-Based Learning Dashboard

SDCCD Work-based learning participation and student outcomes

SDCCD Early College Credit Dashboard

Dual enrollment and early college credit earned by high school students.

Perkins Core Indicator 2 Earned Recognized Postsecondary Credential

% of CTE concentrators who earned a recognized postsecondary credential.

CLNA Element 4: CTE Professionals

Key Question

How diverse is staff? Does it reflect the demographic makeup of the student body?

SDCCD CTE Diversity Report

- Highlights 2024–25 CTE programs where faculty representation does not align with student demographics (gender and ethnicity).
- Prepared by SDCCD OIER in collaboration with HR Systems.

CLNA Element 5 : Progress Toward Improving Equity and Access

Key Questions

Which population groups are underrepresented in your CTE programs?
How are special population groups performing in your programs?

Are there additional enrollment discrepancies related to high-wage, high-demand occupations?

What accommodations, modifications and supportive services do you currently provide to ensure the success of special population groups? Which ones are underutilized?

Data Source(s)

SDCCD Handshake Reports

SDCCD Placement Services Reports

CLNA Element 6 : Labor market Needs

Key Questions

Are CTE offerings broad enough to expose students to in-demand sectors/occupations?

Which CTE graduates are thriving in the labor market?

Job Growth Outlook in San Diego County (2023-2028)

Next Steps: Making This Work Sustainable

Data Governance

Clear Definitions

Standardize how key terms are defined.

Data Quality & Consistency

Ensure accuracy, reliability, and consistency across systems.

Code Alignment

Align TOP, CIP, SOC, and SAM Codes

Ensure code is accurate and aligned.

Improving Reporting Accuracy

Make sure funding is not lost and more reliable labor market data.

Documentation

Create Repeatable Workflows

Save time and ensure work don't get lost.

Transferable Across Colleges

Share and reuse work so other colleges can build on it.
